Introduction

"Change is the Only Constant" - Heraclitus, Greek Philosopher

Are you a SSC aspirant who is confused with which questions to practice and from where to practice? Aspirants often face a lot of trouble in selecting the right question bank to practice for the exam. Therefore, to ease out the candidate's preparation journey we have launched the **SmartBook**, which is a **Next Generation Smart Question Bank**. This Smart Question Bank is a new way of learning, different from the conventional style of practicing questions.

This SmartBook contains the Best 4000 Questions selected from a pool of more than 1 Lakh questions. Question selection and its bifurcation across 3 different difficulty levels are based on the user's attempt & performance data on each question. Testbook's Data Science Team has extracted and processed tons of data points like the speed of answering, maximum time taken to answer, accuracy trend on each question, toppers & average student's performances, etc. from the students' responses on each question. They have then drawn amazing comparative insights for you.

Why Smart Question Bank?

The candidates will learn to emphasize on key details related to problem-solving with the help of this Smart Question Bank. Testbook has designed SmartBook to reform the approach of question-solving. The salient features of this SmartBook are as follows:

- » Best 4000 questions included in this SmartBook have been shortlisted on the basis of performance data of students studying on Testbook's online platform.
- » Machine Learning technology has been used to calculate the difficulty level and ideal Time To Answer (TTA) the questions.
- » Smart Answer Key is provided to analyze the comparative performance data at each question.
- » Free chapter-wise Video Lessons are provided to revise the concepts & tricks before starting the practice which can be accessed by scanning the QR code.

After Solving the Questions Check the Smart Answer Key to:

- ✓ Check question-wise difficulty level and percentage of students who attempted it correctly or skipped it.
- ✓ See the detailed & comprehensive solutions of all questions at the end of every chapter.

How to Use This Book?

1. Who among the following defeated the Mughals in the Battle of Karnal?

TTA : 26 Seconds

- A) Ahmed Shah Abdali
C) Chhatrapati Shivaji Maharaj

- B) Nadir Shah
D) Peshwa Balaji

TTA : Ideal 'Time To Answer' this question

Smart Answer Key

Correct% - Indicates percentage of students who answered the Question Correctly

Skipped% - Indicates percentage of students who Skipped the Question

Level 1 Questions: This level comprises questions from basic fundamental concepts. The students should start with level 1. The questions included in this level shall be based on the direct use of formulae. These types of questions can be solved quickly and shall be helpful for exams like **SSC CGL Tier I, SSC MTS, SSC GD Constable, SSC IMD (Part I), SSC Selection Post (Matric level), etc.**

Level 2 Questions: This level includes questions with moderate difficulty level. These questions shall consist of the applied nature of topics. The expertise in these types of questions will help candidates in exams like **SSC CHSL, SSC CPO, SSC Selection Post (Intermediate level), etc.**

Level 3 Questions: These questions are difficult both in terms of concept as well as calculation. This level of questions is useful for exams like **SSC Selection Post (Graduate level).** In order to enhance your skills in solving tricky and calculation-intensive questions.

Expert's Curated Logical Reasoning Preparation Tips for SSC Exams

The competitive exam journey is not easy given that the number of vacancies is lesser in comparison to the applications received. Lakhs of application forms are filled for a few hundred posts. Such a tough competition is seen because many aspire to be in the Government services given the prestige, handsome salary and highly appreciated social factor that helps contribute in nation-building from the ground level. Staff Selection Commission is a Government body that is responsible for conducting the recruitment examinations of various posts in ministries and departments of the Government of India. SSC conducts examinations for posts mostly covering Grade B and Grade C services. Candidates must be aware of the posts they are applying for because that helps in determining the syllabus criteria of their preparation.

- » There are many graduate-level exams that SSC conducts but nothing is more popular than the Combined Graduate Level examination widely known as SSC CGL. ASO (Assistant Section Officer) in Central Secretariat, Intelligence Bureau, and different ministries are appointed as a result of SSC CGL.
- » From Higher Secondary Level the SSC CHSL exam is very popular, Clerical level posts such as Postal Assistant (PA), Lower Divisional Clerks (LDC), Sorting Assistants, Data Entry Operators (DEO) are filled with CHSL examination of SSC.
- » SSC conducts the examination with Metric level eligibility criteria as well. SSC MTS is very popular in this category through which Multitasking Staff is appointed in the Government ministries. Other SSC exams that fall under this category are SSC Selection Post (Metric level), SSC GD Constable, SSC Stenographer etc.

All the exams conducted by SSC, as mentioned above, have Logical Reasoning in the syllabus. Comparatively easy to the other calculative sections like Numerical Aptitude, the questions from Logical Reasoning can fetch more marks for you. If you have prepared well for this section then chances are you could attempt all the questions from Logical Reasoning. A spike in the difficulty level of the Reasoning Questions has been detected in the last year's examinations but with the help of expert tips coupled with a good preparation strategy, you can score the highest possible marks in Logical Reasoning.

Exam Difficulty Level: Matriculation

SSC MTS, SSC GD Constable, SSC Selection Post (Metric level), SSC Stenographer

Let's have a look at the experts' preparation tips for matriculation level SSC exams. SSC MTS, SSC GD Constable, SSC Selection Post of metric level, and SSC Stenographer follow the metric level pattern of questions. Most of the questions asked in these kinds of exams are easy and can be attempted with the prior knowledge of reasoning that you have acquired in your school time. To attempt all the Logical Reasoning questions asked in the metric level of SSC exams you need to follow the following tips.

- » Logical thinking plays an important role in solving the questions of Reasoning. Practice basic questions of Reasoning from some of the most important topics such as analogies, similarities and differences section, decision making, and visual memory. These questions build a strong foundation on which the other questions are based.
- » Try solving basic Non-Verbal Reasoning and Puzzle questions and understand the logic behind the problem, after enough practice you can create some questions by yourself and solve them.
- » Direction Test is another important topic, you will be using the basic addition and subtraction from this topic however if you don't possess the knowledge of how the North, South, East, and West directions are represented on paper, you won't be able to derive the correct answer.
- » The questions of Linear Seating Arrangement are also asked that are easy to solve. In this section what becomes more important is to understand the meaning of each of the information. The best part of Logical Reasoning is that the answer is given in the question itself, and how you can use the supplementary information to detect the answer is the core of Logical Reasoning.
- » The calculative part in the Reasoning syllabus is very less but if you are good at it you will certainly get the advantage of it in arithmetical number series related questions.

Exam Difficulty Level: Intermediate

SSC CGL Tier I, SSC CHSL, SSC CPO & SSC Selection Post (Intermediate level), SSC JE Paper 1

The tips mentioned in this section are very helpful for candidates who want to appear in the Higher Secondary Level examinations. These exams are also popular in India as most of the youth after completing their schooling try their luck to get a Government job through SSC. Compared to the metric level, here the difficulty level is moderate and the application part of the concept is more prominent in this section. Some tips for intermediate difficulty level questions are mentioned below.

- » The logic becomes more deep and wide for these types of questions. For example, if you were playing with Linear Seating Arrangement at the metric level here questions of Circular Seating Arrangement might appear in the exam.
- » If you solve the same question with the metric level approach it might take more time, but if you have practiced short tricks and tips as mentioned in the Best 4000 Smart Question Bank, you can reduce the time consumed in the solution.
- » Given a large number of applications, SSC now conducts the examination in different shifts and phases, the weightage of the questions and difficulty levels are also changed with the change in exam shifts.

- » Relationship concepts in the Blood Relation topics are very much a favorite of SSC at the intermediate levels. The answer to the correct relation is easy to find out if you have made the correct family tree. You should always remember the symbols to represent the relationship and should not change it if you are reading from multiple books.
- » While solving questions from the intermediate level, if you feel that you are taking more time than usual, there might be chances you have not covered all your basics. In this case, you need to go back to level 1 questions and try solving questions from there and then come back to this level.

Exam Difficulty Level: Graduation

SSC Selection Post (Graduation level)

Graduation levels of questions of Logical Reasoning are comparatively tough to solve but not impossible. Candidates who are appearing in the Graduation level Selection Post examinations of SSC face these kinds of questions. Few tips that might be of great help for you are as follows.

- » At this level, the examiner tests not only your concepts but your time management in a strict manner. What you can do here is to think out of the box so that you can find out the answer to the question in the least possible time and that too accurately.
- » Most focus is given on the Verbal Reasoning part as the questions in these parts are a bit time-consuming. While reading the question you can list down all the information at once so that you do not need to check the question multiple times. Breaking down the sentence into bits of information helps in good logical analysis.
- » There might be chances that some questions will obviously require much time in that case leaving that question will be a good decision. This way you can save time and attempt a question which you might get correct.
- » Practicing a variety of questions as mentioned in the book becomes essential in graduate-level Reasoning Questions because multiple approaches are used in one single question and it is good to know as much as you can.

Smart Tips for Logical Reasoning

The journey of SSC's Competitive examination could become a rewarding journey if you successfully crack the exam. Like different sections of the examination, Logical Reasoning also plays its role in the exam. What makes different Logical Reasoning different from other sections is that Reasoning is logical and it could be answered even with common sense, secondly, it is also scoring due to its ease. Students prefer to attempt Logical Reasoning questions because attempting correct questions helps in boosting their confidence.

Understand the Exam Syllabus & Pattern

The first and foremost step before full-fledged preparation is to know the syllabus. This helps in understanding - what to study and what not to? The pattern of the examination helps in knowing the weightage of the different sections in the examination.

Prepare a Study Plan

We know the importance of daily routine, if you know exactly what you need to do in the given time, things become more manageable and you also become more productive. The same techniques can be applied in your studies as well. Divide the syllabus and individual topics in a daily, weekly, and monthly planner and gauge your performance so that you can make necessary changes in your study plan.

Work on your Basics

- » If you are thorough with your basics the Logical Reasoning questions become very easy to solve.
- » As there are no formulae in Reasoning, what matters the most is logic. You must spend your time developing different types of techniques to solve the same question. You can take help from this Best 4000 Smart Question Bank for this purpose.
- » Only when you are good at basics and can attempt related questions, should you switch to the intermediate and higher difficulty questions.

Practice Questions as well as Time Management

It will not be a wise decision that you are practicing the concepts only and are not paying attention to the amount of time you are taking in order to solve the question. Time management skills should be acquired along with conceptual clarity. If you take this point lightly, there are chances that in the examination center due to the lack of time you will not be able to attempt questions even if you know how to solve them.

Practice using Previous Year Papers and Attempt Test Series

- » Previous Year Questions are a great resource for knowing the level of question of the exam you are preparing for. PYPs also help in identifying your weak and strong areas in Logical Reasoning.
- » Practicing mock tests is also of great importance as it replicates the examination environment so that you can understand how you are going to perform in the actual examination. Serious candidates should not miss attempting mock tests.

LEVEL 1

1 - 61 Questions

Sol 1.

According to dictionary reverse order, words will be arranged as follows:

3. Muscular

1. Muscles

4. Marrow

2. Made

Hence, '3, 1, 4, 2' is the correct sequence.

Sol 2.

Let us check each option:

1) 58, 22, 89, 01, 44 → L, O, G, I, R

2) 21, 75, 89, 01, 24 → L, O, G, I, C

3) 55, 58, 01, 24, 97 → E, L, I, C, D

4) 33, 75, 89, 56, 13 → L, O, G, H, P

Hence, the set which represents 'LOGIC' is '21, 75, 89, 01, 24'.

Sol 3.

The word that can be prefixed is dis to make new words.

Dis + Ease = Disease

Dis + Courage = Discourage

Dis + Miss = Dismiss

Dis + Order = Disorder

Hence, the answer is 'Dis'.

Sol 4.

Let's check each option,

1) 23, 56, 86, 11 = KBNT

2) 31, 79, 95, 33 = KENT

3) 44, 69, 87, 04 = KNET

4) 02, 96, 57, 41 = KENU

So, the correct answer is '31, 79, 95, 33'.

Sol 5.

The logic follows here is :

Given word	Options	Uncommon letters	Formation
DETERMINES	MINE	All are common	Can be formed
DETERMINES	RINGS	G	Cannot be formed
DETERMINES	DIME	All are common	Can be formed
DETERMINES	RENTS	All are common	Can be formed

Thus only RINGS words cannot be formed using the given word.

Hence, the correct answer is "RINGS".

Sol 6.

The correct dictionary order is as follows,

3. Cable

5. Creep

1. Crown

4. Cupid

2. Custom

Thus, the correct sequence is 35142.

Sol 7.

Let's check all the options,

1) 04, 03, 77, 76 → FACT

2) 95, 97, 99, 24 → FASY

3) 04, 97, 34, 42 → FAST

4) 95, 03, 97, 40 → FAAZ

Thus, the set '04, 97, 34, 42' represents the word FAST.

Sol 8.

A. Larynx

B. Liberty

E. Light

D. Lustre

C. Lysosomes

Hence, 'ABEDC' is the correct sequence.

Sol 9.

As there is no 'E' in the given word. So, ORANGE is not derived from ORGANISATION.

Hence, ORANGE is the correct answer.

Sol 10.

After arranging given words as per dictionary order,

5. Incident

4. Include

1. Income

3. Increase

2. Indeed

Hence, "5, 4, 1, 3, 2" is the correct answer.

Sol 11.

1) BENZANE → Letter A is not present in BENZOPHENONE, so it cannot be formed.

2) NEOPHOBE → can be formed from BENZOPHENONE.

3) BORBOURN → Only single B is present in BENZOPHENONE. So, cannot be formed.

4) ENZAPHONE → Letter A is not present in BENZOPHENONE. So, it cannot be formed.

Hence, "NEOPHOBE" is the correct answer.

Sol 12.

There is no 'L' in the word COMMUNICATION

So, the word National can't be formed.

Hence, National is the correct answer.

Sol 13.

iv. Nocking

i. Noisy

iii. Nonjury

ii. Nozzle

Hence, the sequence iv, i, iii, ii is the correct answer.

Sol 14.

Let's check each option,

1) NEAREST → Cannot be formed as there is no 'S' and 'T' in REARRANGE.

2) GREEN → Can be formed REARRANGE.

3) RING → Cannot be formed as there is no 'I' in REARRANGE.

4) REAL → Cannot be formed as there is no 'L' in REARRANGE.

Hence, only 'GREEN' can be formed from the word REARRANGE.

Sol 15.

According to dictionary order:

4. Fermentation

1. Foreign

5. Foreman

2. Fragment

3. Freeze

Hence, '41523' is the correct sequence.

Sol 16.

1) Nomination → COMPANIONABLE (Letter T, one I and one N are not present)

2) Penalty → COMPANIONABLE (Letter T and Y are not present)

3) Nominal → COMPANIONABLE (Word can be formed)

4) Amoeboid → COMPANIONABLE (Letter D is not present)

Hence, the answer is 'Nominal'.

Sol 17.

1) 04, 34, 21, 55, 67, 76 → SCHUUL

2) 87, 77, 13, 98, 75, 76 → SCHOOL

3) 87, 77, 01, 98, 75, 76 → SCMOOL
 4) 04, 34, 21, 98, 98, 89 → SCHOOP
 Hence, '87, 77, 13, 98, 75, 76' is set of number that represent word 'SCHOOL'.

Sol 18.

- 1) 20, 12, 76, 57, 01, 78 → E, N, S, U, R, E
- 2) 41, 03, 85, 79, 98, 97 → N, N, S, S, R, E
- 3) 78, 88, 22, 99, 22, 41 → E, M, S, U, S, M
- 4) 97, 67, 87, 79, 66, 78 → E, N, M, U, R, E

Sol 19.

Stone age: until c. 3300 BCE

Bronze age: c. 3300 – c. 1800 BCE

Iron age: c. 1500 – c. 600 BCE

Machine age: Late 19th century

Thus the correct order is as follows,

Stone age → Bronze age → Iron age → Machine age

Hence the correct sequence is C, D, B, A.

Sol 20.

- 1) SUITINGS → LINGUISTICS, hence word can be formed.
- 2) UTILISING → LINGUISTICS, hence word can be formed.
- 3) LISTING → LINGUISTICS, hence word can be formed.
- 4) STICKS → LINGUISTICS, hence word cannot be formed (as letter K is not present).

Hence, "STICKS" is the correct alternative.

Sol 21.

- 1) 42, 96, 44, 40, 00, 89 → I, N, D, I, A, N
 - 2) 40, 96, 44, 40, 31, 13 → I, N, D, I, A, M
